

# Hands-On Workshop Outputs

The background of the page features several thick, hand-drawn lines in various colors including orange, red, blue, yellow, and purple. These lines are drawn in a somewhat chaotic, overlapping manner, creating a sense of movement and creativity. The lines vary in color and thickness, and some are more prominent than others.

# Vision

# MEMORABLE PLACE.

→ PLACE IS ABOUT  
MEMORY.

Don't be all things to  
all people - and end  
up with nothing.

What is it that  
would draw Glaswegians  
to it?

- access (bus route)
- finchian

It's the place for  
people in the city  
to go.

Whatever we do,  
it must be  
future-proofed!

There is too much  
short-termism  
(in local authority  
banking).

---

Broken mirror effect.

"It's fine as it is -

money would be

better spent elsewhere"

---

"Glaswegians will be angry

if the square becomes

something they don't want"

Should George Sq.  
reflect the culture  
we want or the  
culture we currently  
have (chains etc).

George Square should  
display 'Alasregions'  
as qualities - distinctive!

---

- Gregariousness
- ~~Local~~ Local culture/art
- Spontaneity
- Friendliness

"George Square should  
be Glasgow!"

Let's have some

gallowsners ! gallus !

- where kids can run about
- something Colognian
- playfulness

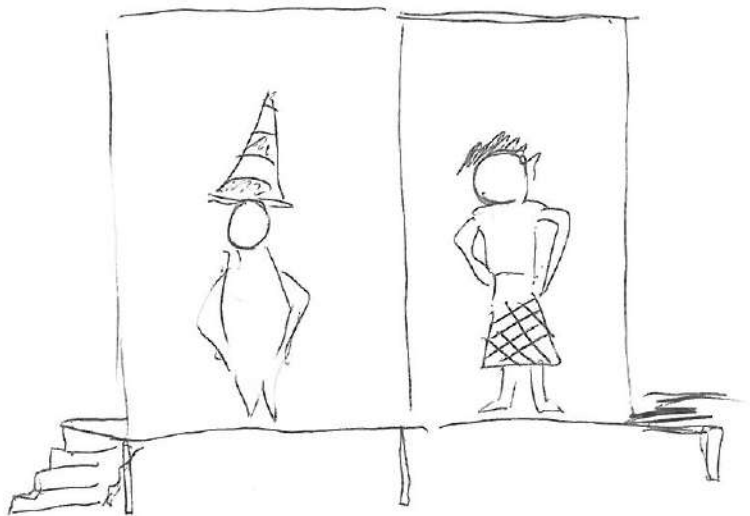

GEORGE SQUARE A  
PLACE TO BREAK FROM  
THE CITY..

George Square should  
be memorable,  
the best it can be

It should be a  
people friendly space.

INTERACTIVE SPACE  
WITH A PINCH OF HUMOUR

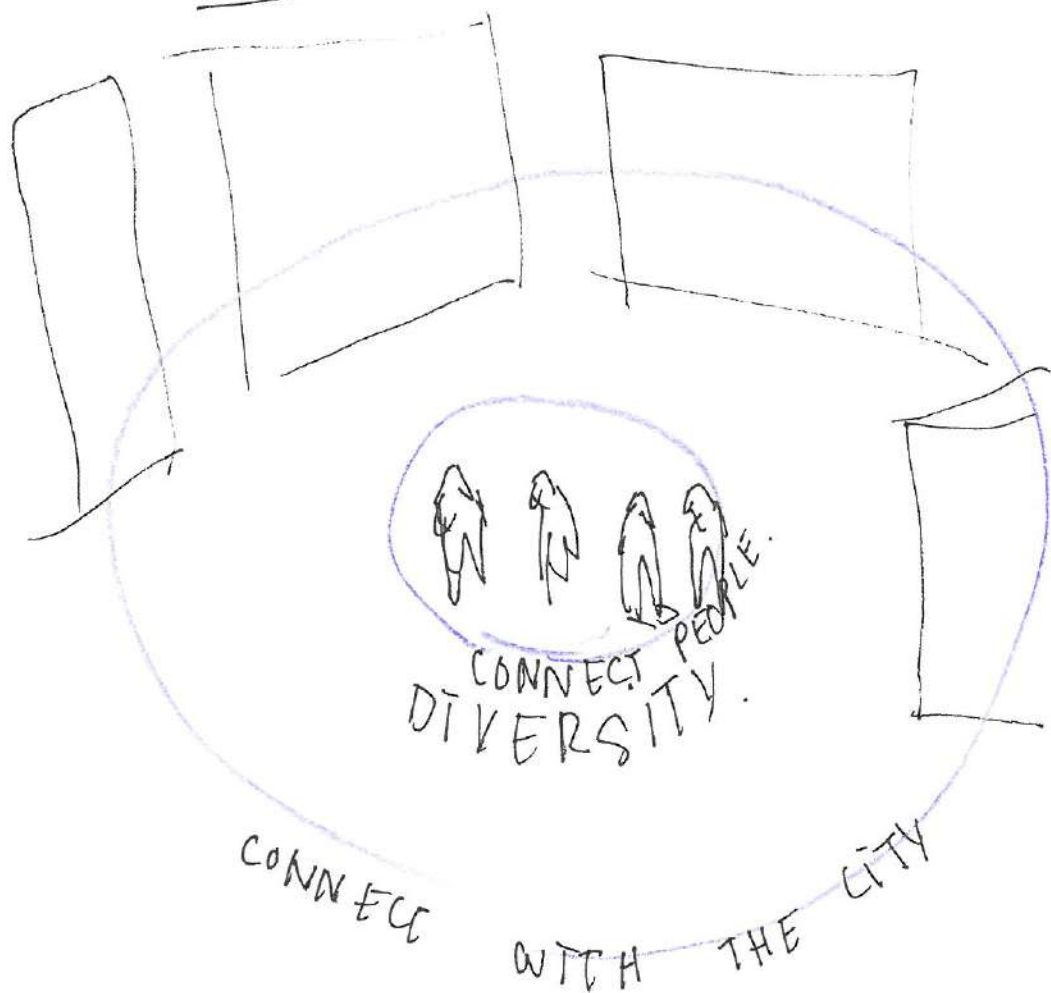

It could make it  
more people friendly

(reflecting how

Glaswegians see  
themselves).

Square should reflect the 'people friendly'  
aspect of Glasgow's People

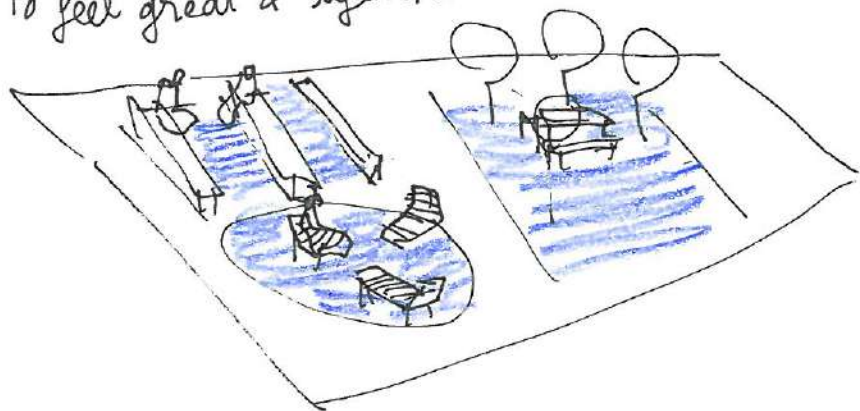

BRING PEOPLE TOGETHER.

Is disconnected from  
the quality of the ~~city~~.  
rest of the city currently.

GEORGE SQUARE  
THE LIVING ROOM  
of the city.

Arrange it to make people use it.  
To feel great & safe there.

George Square should be the living room of the city, and we need to rearrange the furniture properly.

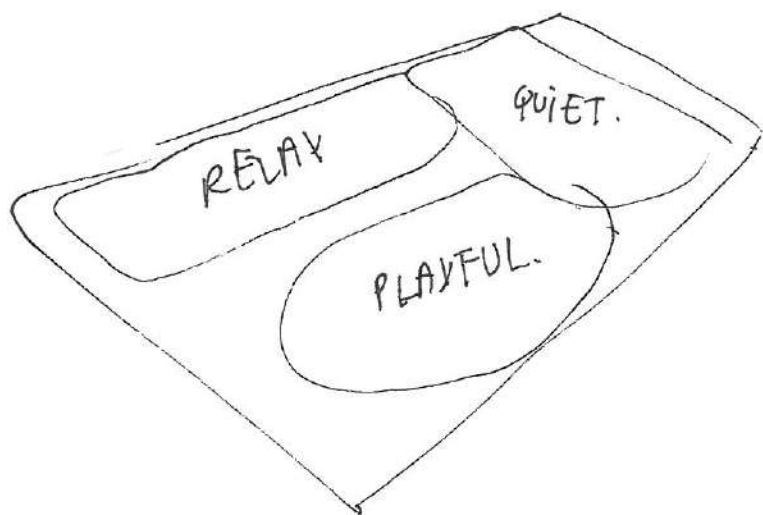

Al. Green is the garden of the city.

→ Glasgow Green a great success.

→ was reactivated in the city  
THE GARDEN of the city

→ George Square THE LIVING  
ROOM of the city.

THE SQUARE

- SHOULD BE

A SHOWPIECE

Should be more inspiration  
for everyday folks in the  
Square

WOW! factor! <sup>a place to inspire</sup>

- big fountain / water feature
- lighting
- contemporary artwork
- 4<sup>th</sup> Plinth
- reconceptualize ~~one~~ <sup>the</sup> of statue of Queen Victoria - sink it into ground, put cheeky kid over head

Can George Square  
cater for an art  
and design scene.  
within Glasgow?

Is there a way of  
making it visible

Design should be  
simple -

- not exploited (for people)
- grass
- trees
- clean
- flowers (well tended)

It needs colour.

(so it isn't just  
grey).

Reconnecting it in to  
the city's fabric.

It would give more of a  
flow of people

Reduce the noise aspect

It gives more scope to  
add new things to  
the public space.

I don't go to George Square  
often anymore to sit in  
as I just don't like the  
way it is today.

Passing  
or walking  
through.

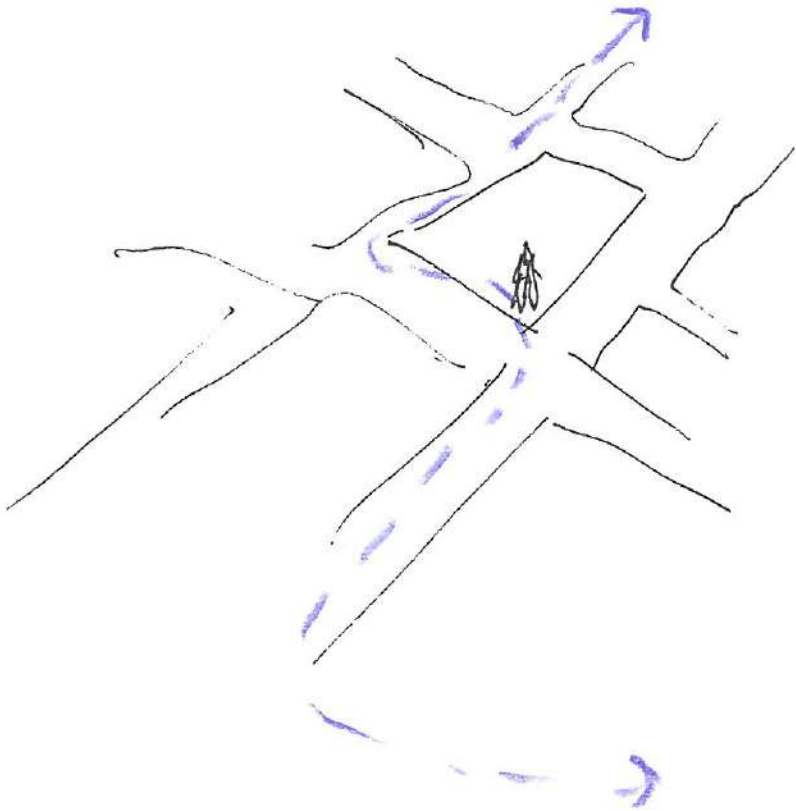

"Don't always have to use the square for something - it can just be!"

- if it's a good enough square, people will naturally congregate there, and things good things will happen

Need to create the feeling  
of "wow" "this is amazing"!

- needs combination of  
physical design/activity
- not just about the utility  
of the square

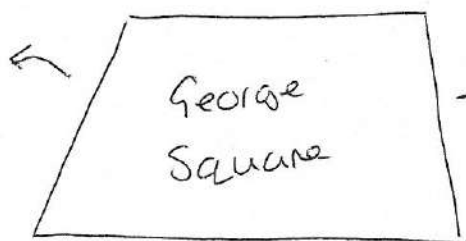

PLACE TO GO THROUGH  
NEED CONNEXIONS  
WITH OTHER PLACE.

Buchanan Street, shopping

How do we make the  
connections between these  
two to enhance the  
experience.

Merchant  
City

Places to eat, drink, stay

How To Connect  
To MERCHANT CITY

- STARTING OFF POINT

- How do we encourage the connection to Merchant City?
- George Square is good for a short cut to reach other areas of the city centre.
- Connections to other parts of the City Centre.
- Cycle lane should be incorporated into the design of George Square

How would  
pedestrianisation affect

how people can access  
the city.

This needs to be  
addressed in design.

Need to maintain public  
access routes across  
the square

- consider main entry points:  
Queen St, etc

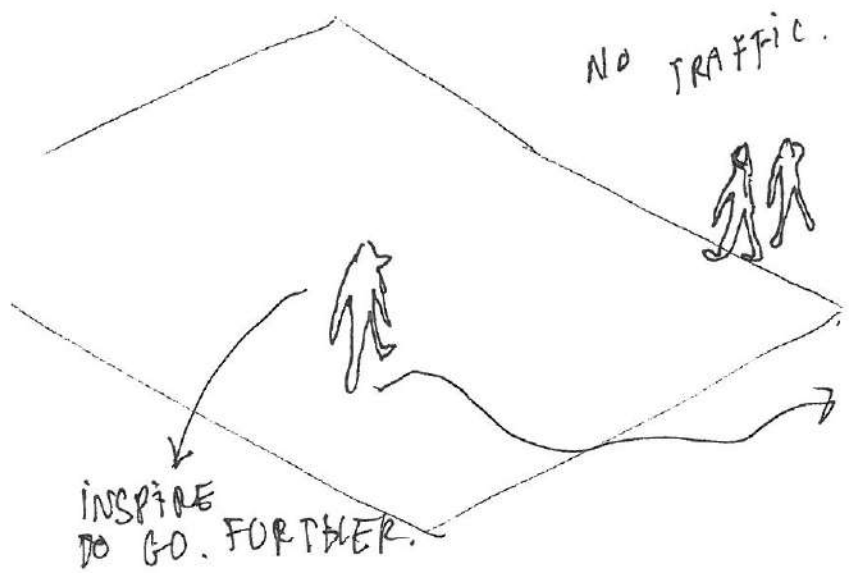

Keep out commercial  
activities — but ok to  
have things on the  
Square you pay for, if  
you ~~walk~~ can walk  
through for free.

---

Don't pay to get in !

---

PLACE THAT SET YOU  
TO WALK MORE.

→ It doesn't inspire me to walk more.  
When I see the traffic.

An open space  
to relax, meet  
and socialise.

Space for a wee  
breather when you're  
working in the city

- Should always be this,  
on any given day - informal  
space to meet

↳ ie. events  
shouldn't take  
over the whole  
square

- Visibility / openness is important  
for meeting people

A space that is  
free / accessible all  
the time.

- Guiding principles, and  
maintain access. i.e. no  
fences

Yes

'There's always something  
going on'

- Somewhere where  
we can do nothing

Have a café  
in the square

Protect the open

space

At the moment:  
the openness is  
overwhelming - not a  
place to choose to sit,  
even though people  
want to

Create more

public space —

- remove private cars

- remove parking

- <sup>bus</sup> access on N. side only  
(like Marshal Sq bus only, Aberdeen)

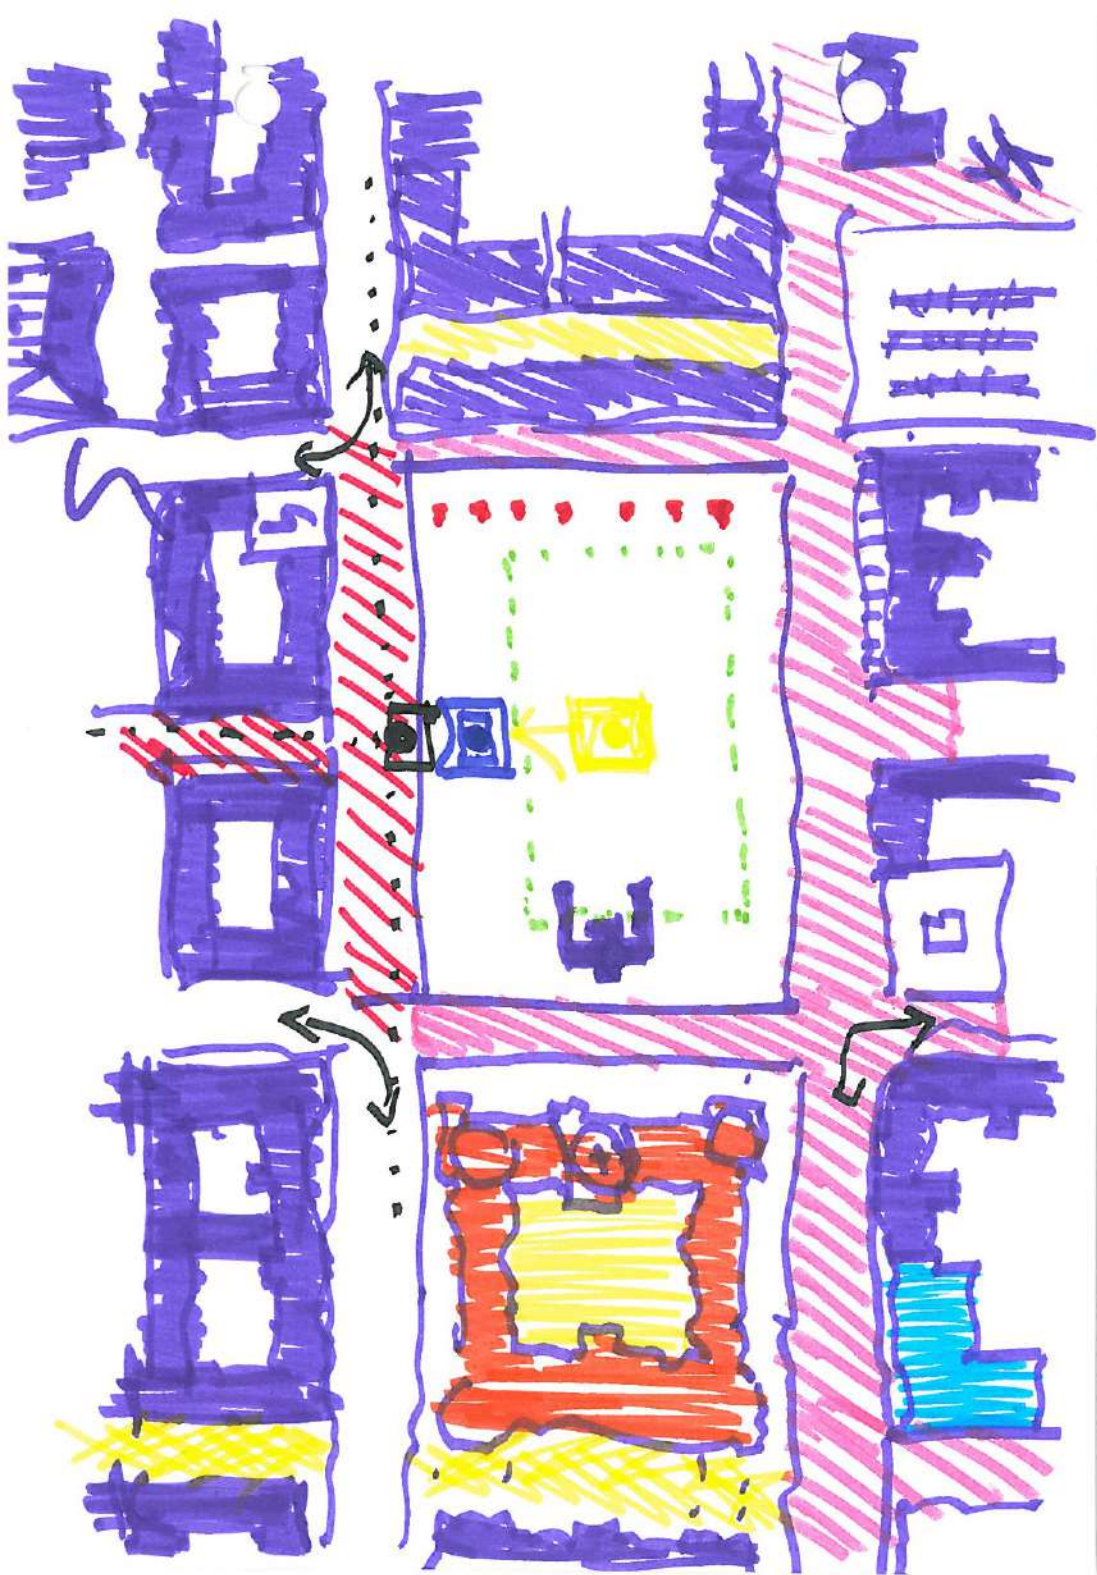

... to enable more  
public space and other  
good things

Unless you were going  
to sit down, you rarely  
see someone with a  
coffee there.

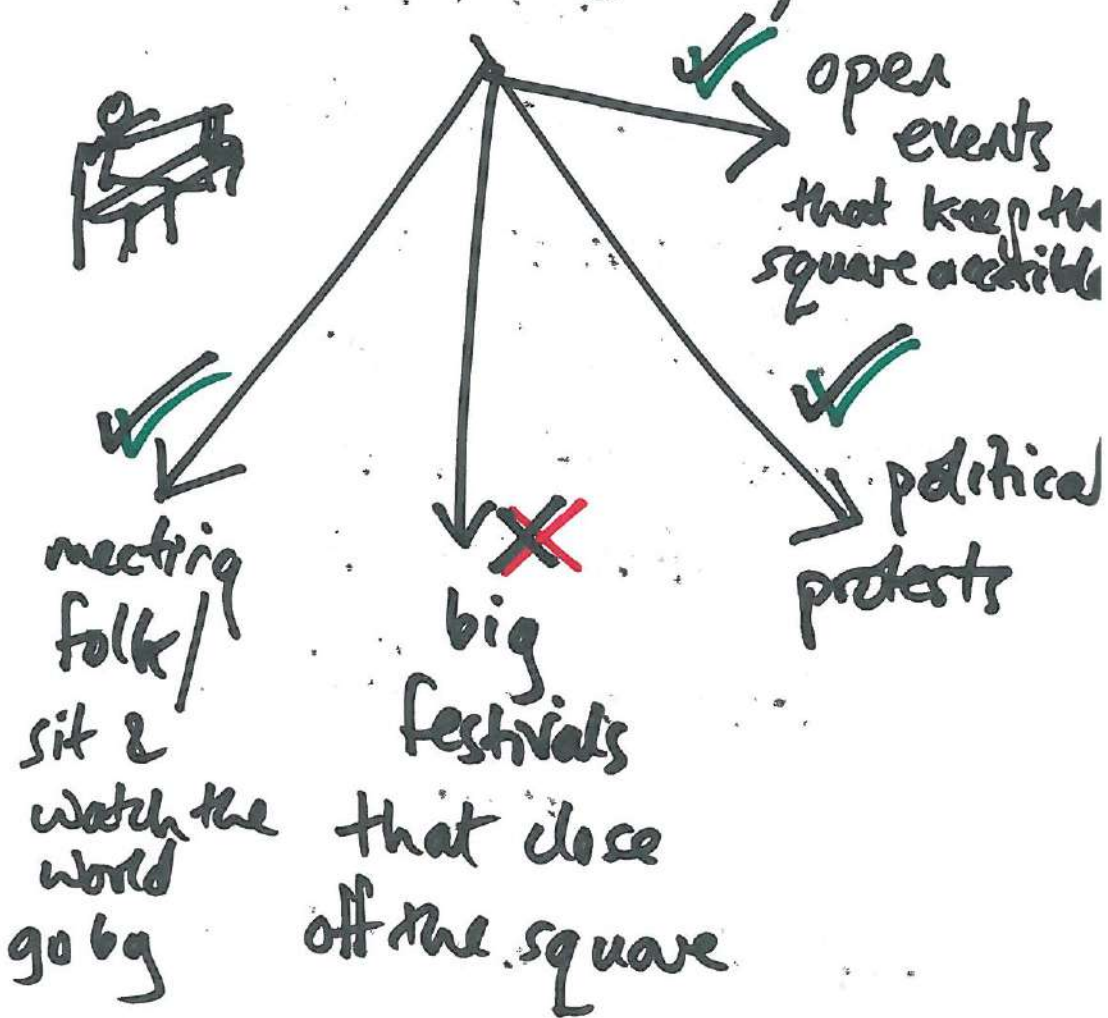

DISCONNECT BETWEEN  
EACH REGION -  
SQUARES COULD  
BRING PEOPLE  
TOGETHER

BRINGING PEOPLE  
TO THE SQUARE IS  
DIFFICULT ~~PEOPLE~~  
EVENTS ARE  
ORGANISED FOR  
ELSEWHERE

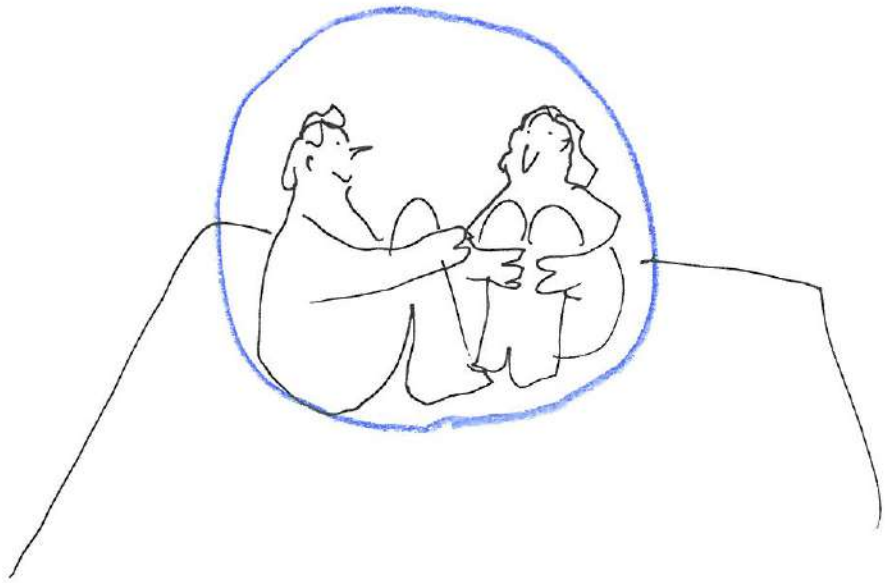

Space to sit / congregate  
- sheltered (trees)

You want to feel protect.  
No traffic, nice atmosphere.

A Place that  
Creates a safe space  
where people can meet  
up + have easy access.

The Current ~~safe~~

traffic levels can  
make it feel unsafe

~~As~~

While George Square  
includes thoroughfares,

The central space can  
be the space where people  
can stop, sit down and  
~~have~~ ~~sp~~ be a place to  
do things

For this to be possible,  
it does need shelter  
so that it is part of  
life whatever the weather.

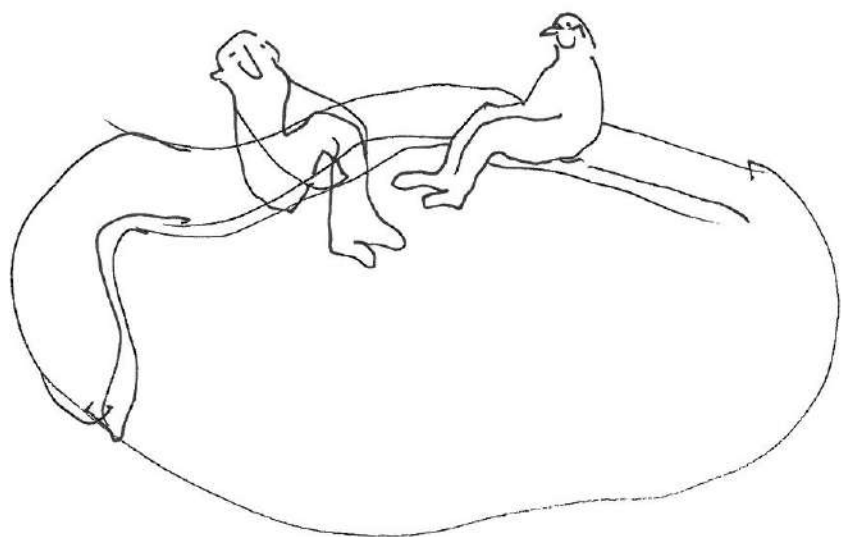

Some where that  
feels comfortable.

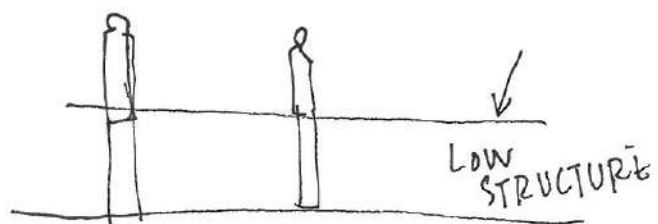

Glasgow is doing more  
with public space, with  
cafes and even down  
the river.

A place to sit

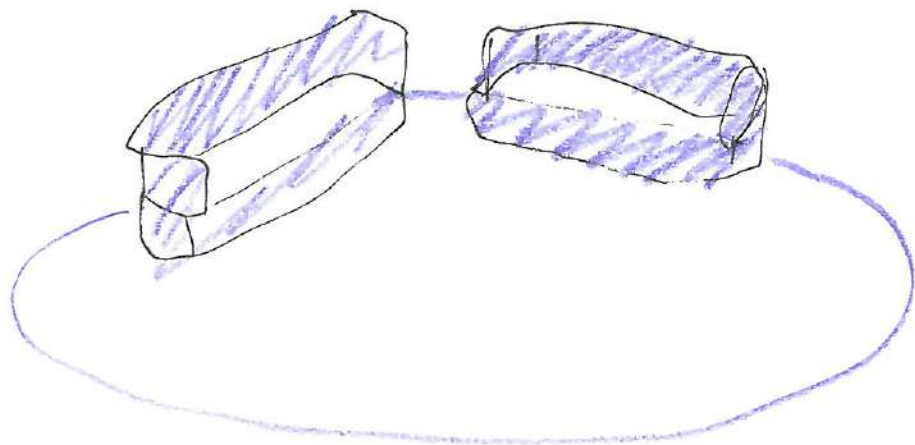

seating is really important

# INFORMAL SITTINGS.

COLORFUL  
BENCHES  
SQUARE.

→ Balance between natural and colorful elements.

Barcelona's tiled

seating, have character,  
design.

Arrange seating to be  
more comfortable/protected.

Outdoor cafes.

Shelter (eg. caropies,  
awnings, heat).

Somewhere to sit/stand  
and have a piece

Provide a space / design  
that naturally gives  
people spaces to sit.

Plain, faceless, or lacking  
personality.

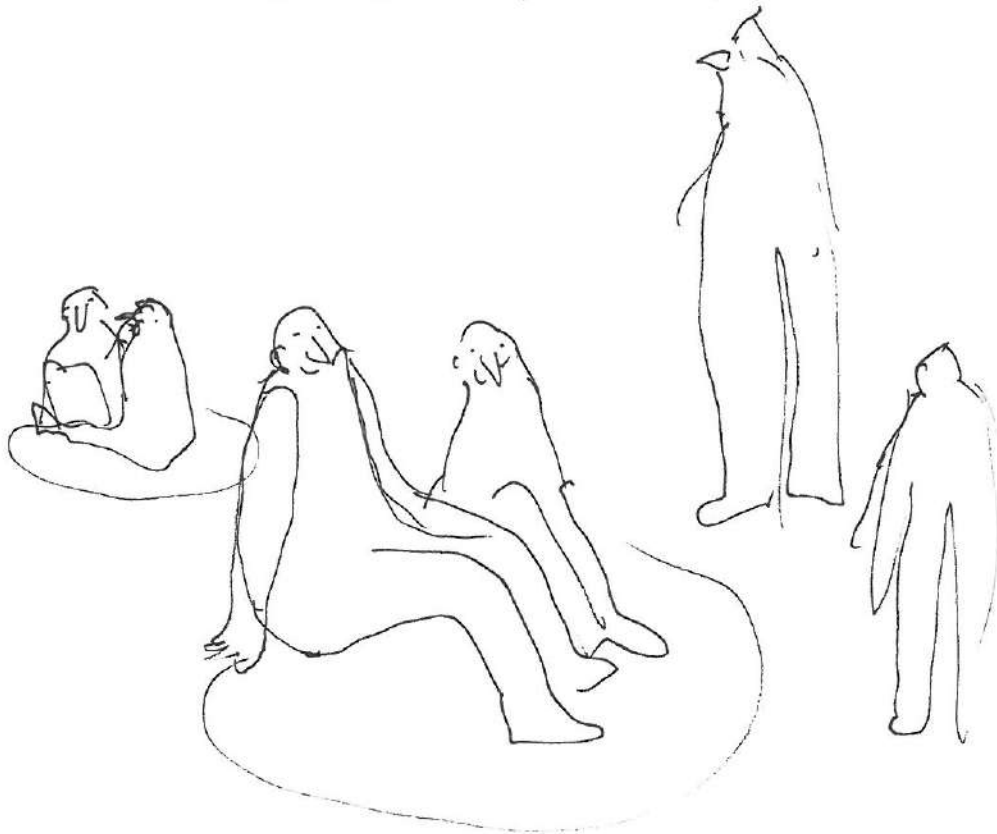

Don't spend a lot  
of money on it  
but use imagination

- more flower beds
- cafe
- fewer gatherings
- no funfairs!

Where people can sit  
on their lunch break  
and eat sandwiches/  
relax

PLACE TO MEET  
& CHILL FOR 30 mins

→ Round about for the moment.

→ It's not a great place to hang out.

→ I go and stop only if I have to.

→ Don't remember any trees on George Square.

Intergenerational / kids -  
older folk - kids

playing in the evening

- playfulness should be  
part of the 'feel'

Create a bit of  
relief - hillocks to  
lie on in the sun

- TRAFFIC NOT RELAX

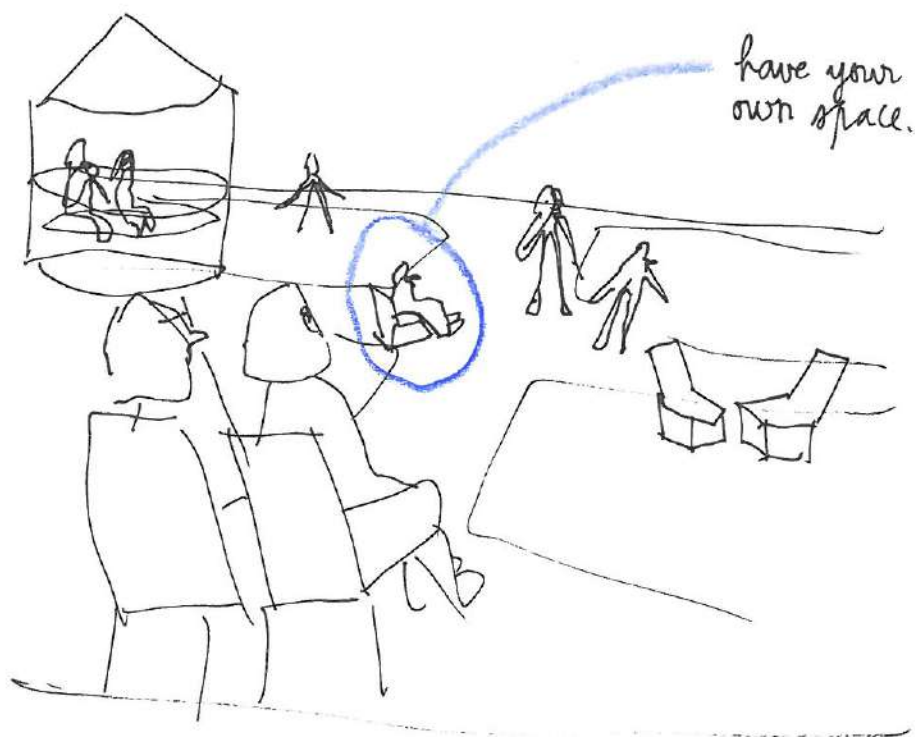

- SCOTLAND GREY.

Function of a square is  
to socialise & relax

... accommodate demos/gatherings  
too

Currently George Square is the heart of the city were some people talk but I feel many use to "cut corners" ie

- loss of conversation

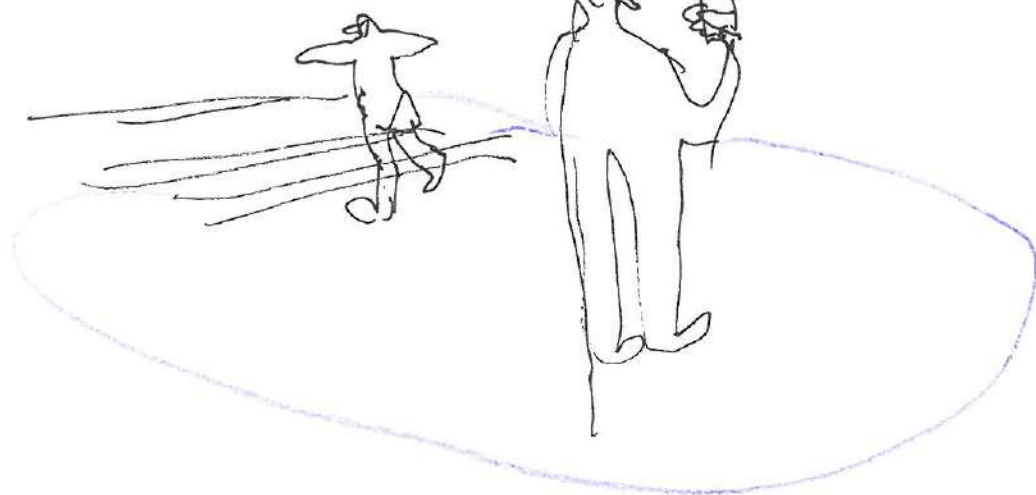

can converse with friends + meet up but what if you want to meet someone new

- ~~that~~ something that suggests people make Glasgow.

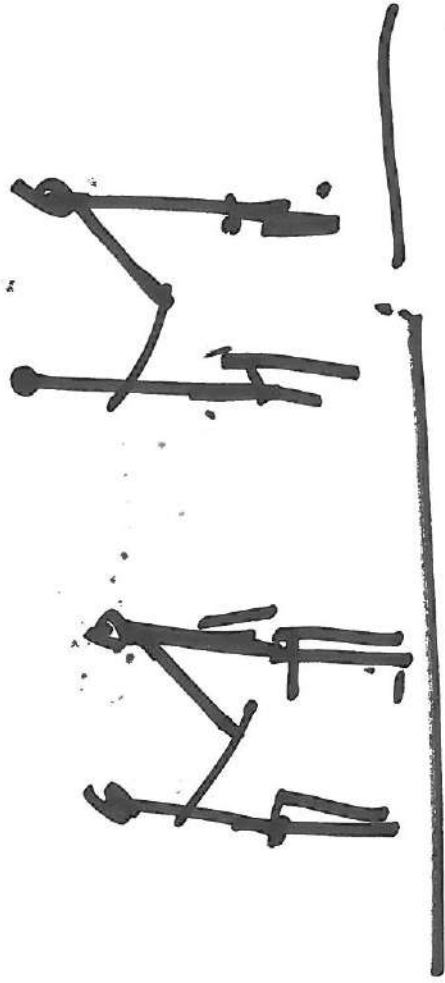

# MORE INTERACTIONS ON IT

PLAYFUL.

## Activities (free)

- pianos
- ping pong
- chess sets.

Does this link with  
programme/management so  
it can be a changing  
space that encourages  
people to use it.

Feels dead at night -

~~but~~ when Indypref campaign

or friendly in the evening

# Keep as open space

- 1) Enhance green / tree planting
- 2) Update statues — remove  
slow elements
- 3) Space for outdoor café  
pop-up space. / continental  
model.
- 4) Make ice-rink an annual  
feature.
- 5) Fountain ?
  - Repurpose an  
old one
  - Commission  
new sculpture

Yes in principle —

- eg. through trees  
(but not across entire square)
- keep a useable space in  
centre of square
- always busy in summer, but  
quieter in winter.

L7 shelter needed (ok  
even if cold!) eg. conopies

- Create an area for performance that's free to use for students etc (rather than big fancy stage)

- eg. Trafalgar Sq. 4<sup>th</sup> plinth

Barcelona : square with orchestra  
Riga too

- Programme of cultural activities  
all year - free! For backbone  
of the city - citizens!

- If it's attractive to locals, it'll be attractive to visitors too.

~~Use~~ Use the square to  
create more "community"

PEDESTRIANISED.

Cars shouldn't have  
priority — pedestrians  
should !

Need public transport.

But don't let vehicles  
dominate.

Need to think about access  
to Queen St station.

Don't like the roads  
around the square -  
should be consistent rules  
for access - remove  
private cars? reduce  
speeds?

Access for parking on  
Street should be  
for disabled people.

(There is a large supply  
of formal car parks  
available in the  
city centre).

Restrict <sup>private</sup> traffic - let kids  
run about - but need  
access to Queen St  
station - ~~including~~ <sup>at least by</sup> by  
bus

- get rid of all cars !
- get rid of parking

Place of arrival at  
Queen St station -  
'gateway' or  
'threshold'

→ QUEEN STREET STATION, they arrive there  
it should be a gateway.

→ OPEN ACCESS to buildings around.

Treat Square as an  
extension to the station -  
seating, departures board

+ good for passengers

- does it fit with the

# TRAFFIC UNDER THE SQUARE.

CLOSE TWO ROADS.

No matter what a choice  
has to be made between  
shared or separate, and it's  
going to have to ~~be made~~  
make it more hostile for  
one 'group'

Special events  
or occasions.

Should be open to  
all Glaswegians from  
all over the city.

EVENTS BRING PEOPLE TO THE  
SQUARE.

George Square

as an events

space —

must be free 2 public,  
and keep <sup>some</sup> ~~that~~ space

free for others too

Commercial events

are problematic -

keep people out of the

square & look shabby

Political events ok -  
part of the gallousness  
of Glasgow.

Hi-quality events only.

Cycling, handball football etc  
ok.

Free or as free-as-possible.

HOARDINGS AROUND EVENTS  
EXCLUDE SOME PEOPLE SOME  
OF THE TIME.

EVENTS ARE GREAT, AND  
BRING PEOPLE TO THE  
SQUARE, BUT SHOULD  
NOT EXCLUDE.

EVEN S : could ruin the

TREES : good for scale.

Sheltered structures?

GRASS

Good place for  
organisers to put events

Looks a bit bleak...

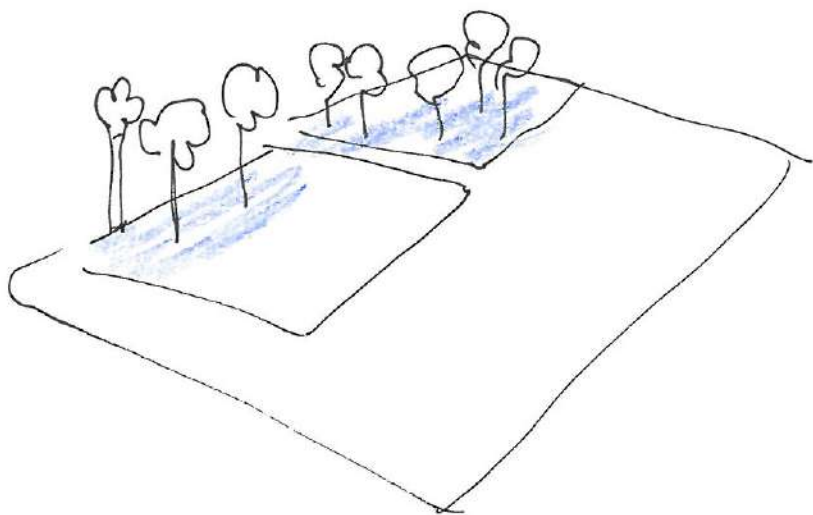

if it was to have  
events as a <sup>key</sup> purpose  
this is what it would  
have to look like

eg. The Big Day, 1990

- music

- bigger events could  
be at G.I. Green

FIND THE RIGHT  
BALANCE BETWEEN "TREE SPACE"  
AND BLANK SPACE FOR EVENTS.

Need to avoid trees

the pressure off George Sq.

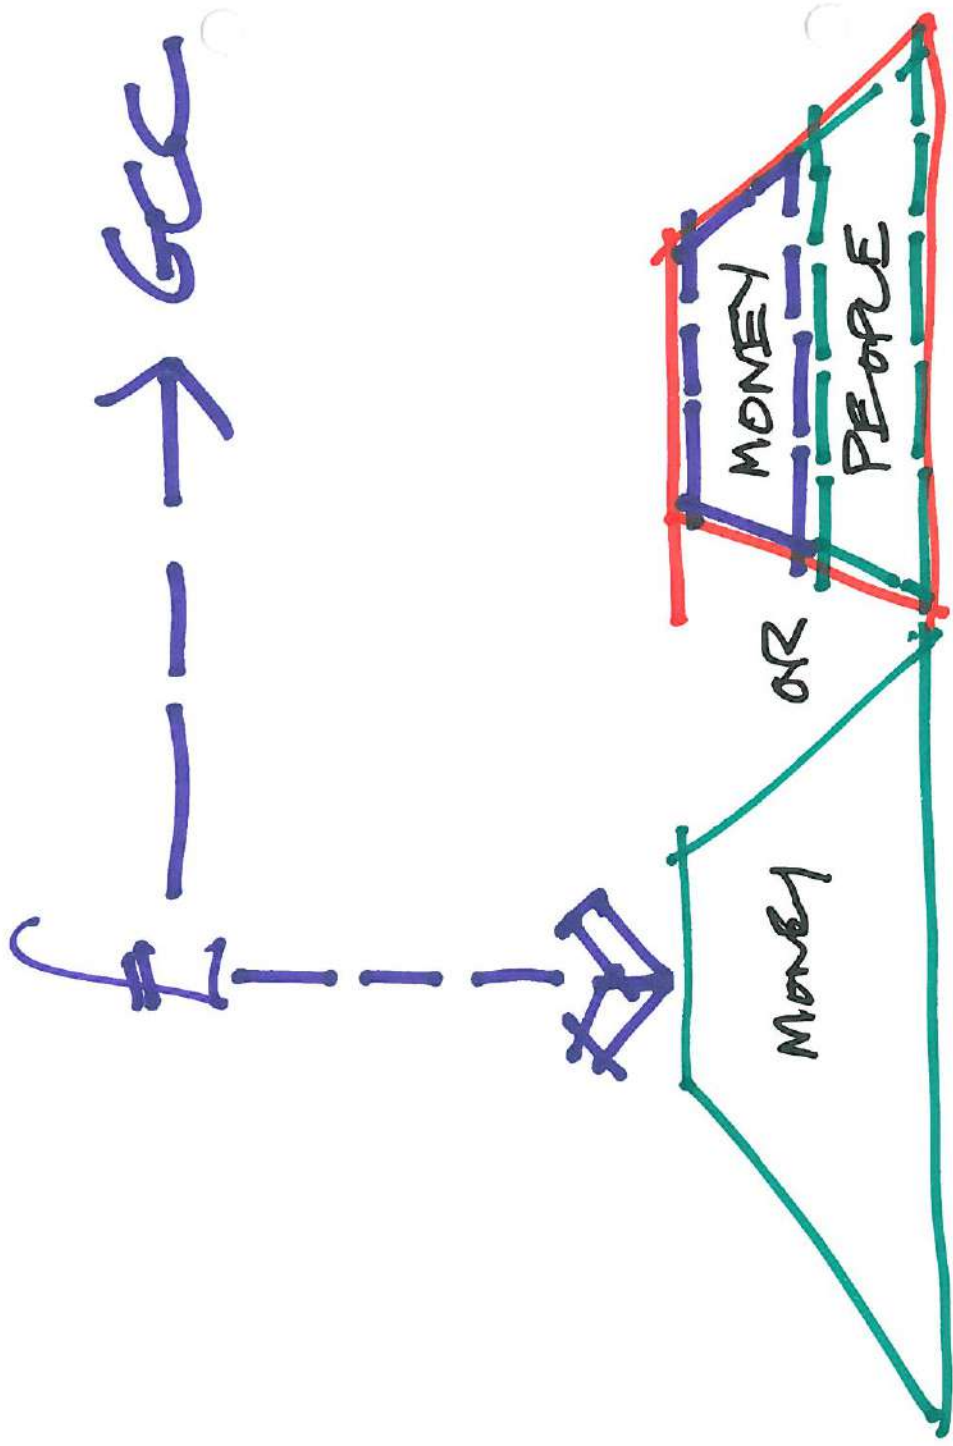

Mustn't stop political

PUBLIC SPACE + PRIVATE EVENT

CONFLICT

ETHICAL ISSUES

## EVENTS ON THE SQUARE.

→ it should not be everything!

→ It needs MANAGEMENT & CURATORS.

→ So many culture in Glasgow.  
↳ CULTURAL EVENTS.

→ Space to stay → less dodgy.

→ TASTE to George Square.

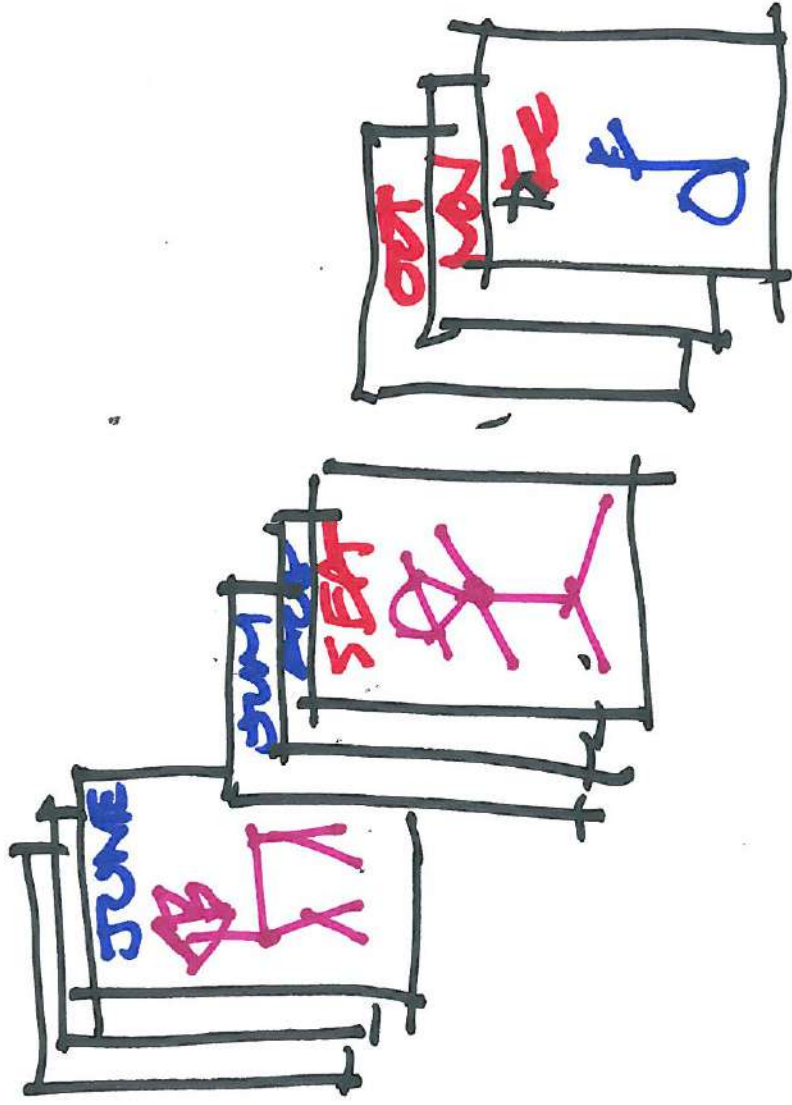

→ West end Glasgow? Grubby edge that you find elsewhere in Glasgow?

It would be incredible to  
have more events in the  
square / show off local arts / culture  
... <sup>community art /</sup> ~~fair~~ busking (space for  
local folk to perform / exhibit)  
... but not dodgems / fair etc

NOT ENOUGH ART  
& DESIGN OPPORTUNITIES  
/ EVENTS

# ANNUAL CULTURAL PROGRAMME

SEEING ACTIVITIES, PARTICIPATING.  
YOU CAN TELL your experience.

→ ENGAGING

→ DANGEROUS BRANDED

→ Need to be careful with  
it.

→ FREE EVENTS.

- It's not attractive, not inviting.
- Not<sup>a</sup> welcome place.
- Do not block the square for any events.

CHRISTMAS

FARES (& LIGHTS)

ARE TACKY

# EVENTS

NO TO TACKY XMAS  
PARTIES ETC

NO TO CONCERTS

NO TO DEMONSTRATIONS

- IT CAN BE AN INCLUSIVE SPACE FOR 'ALL' AND NOT 'EXCLUSIVE' FOR THOSE WITH ABILITY TO PM OR THOSE THAT BELIEVE THEMSELVES TO BE MORE FLEXIBLE.

GEODESIC SOURCE CAN BE A  
FLEXIBLE SPACE THAT COULD BE  
REDESIGNED TO HOST EVENTS  
BUT ALSO REPRESENT A QUIET  
SITE FOR CONTEMPLATION ETC.

There's no farmers  
markets. (uniqueness?)

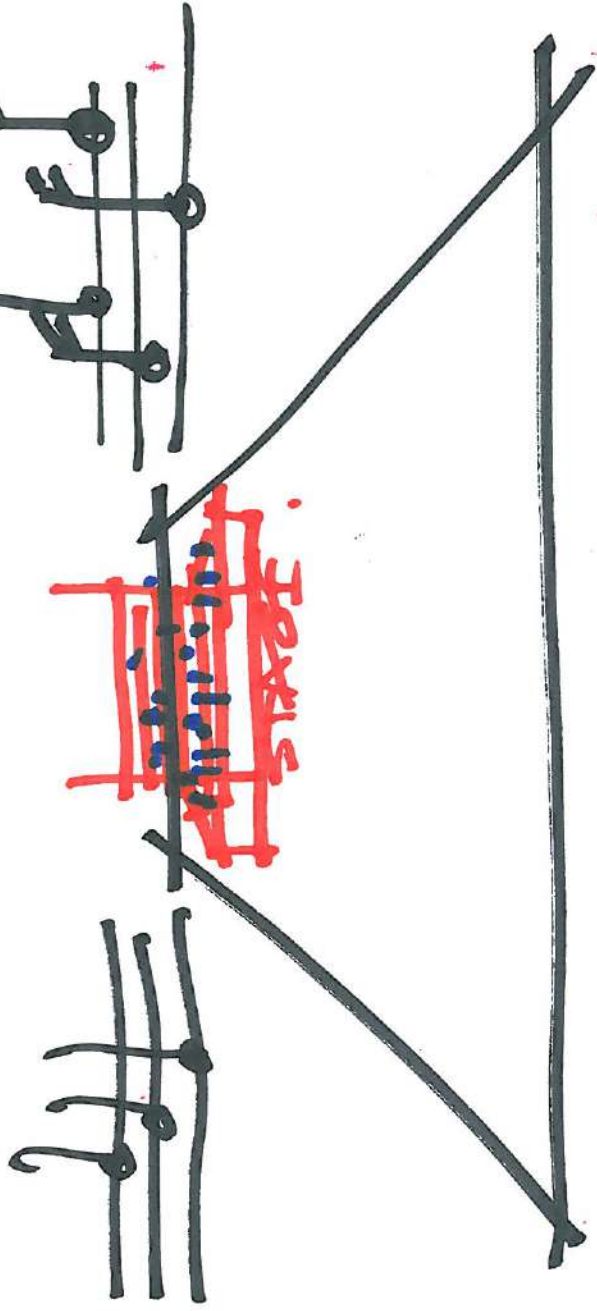

- Events might be part of seasonal adjusting, but must be open to all & not block the square to movement

- eg. Xmas market would mark out seasonality

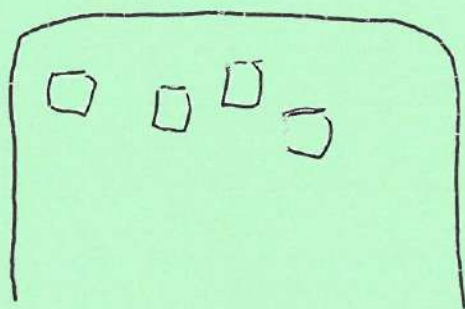

- eg music Prom & other events (programme over seasons)  
(good acoustics!)

ROWS IN THE SQUARE

REMNANT PERFORMANCE AREA

- enhancing the Square
- lack of notification of events
- Events are targeting family + friends but perhaps not relevant + its expensive
- maybe if we had an event board for people to put events on it, creates conversation.

- community garden.

## Events

- George Square isn't big enough for the events it holds
- Small events space at the West end of the square (Merchant House)
- Events capacity should be limited

Need to think about  
how large crowds are  
managed / policed / made  
safe.

---

~~She~~ Maybe  $A^2$  is not the  
place for big free ticketed  
events - they should be  
elsewhere, eg. Al. Green.

No financial barriers!

OPEN BUILDINGS

# Let cafes spill out with outdoor seating

- could we pedestrianize the whole thing?
- let's think strategically + be ambitious, think about the whole area
- or do it bit by bit?

Restricting the  
level of traffic space  
can allow ~~people~~ cafes

ANIMATE EDGES

KEEP THE CENTRAPH

- EMBRACE IT  
INTO REDESIGN.

Restore Imperial measures fully

Public art can be  
part of a modern

things that means  
something to  
contemporary.

Variety, strikingness that

→ not much attached to statues.

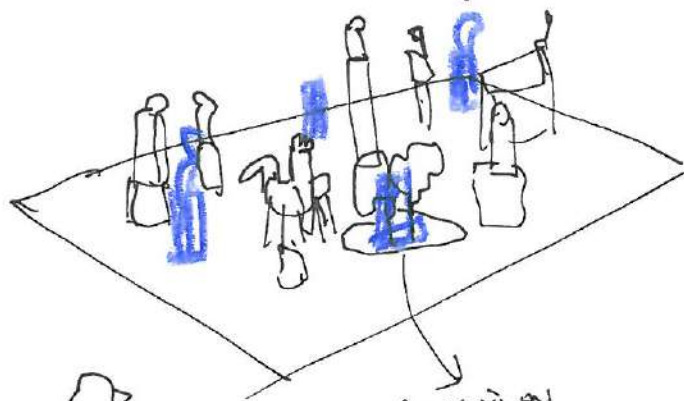

# Statues

- no consensus about them
- poor gender balance!

- ~~Statues~~ n
- Statues need conservation work.

THEY ARE HERE FOR  
SOMETHING.

→ Can it help to celebrate  
Glaswegians' culture.

WHAT TO DO WITH  
STATUES?

Statues are part of

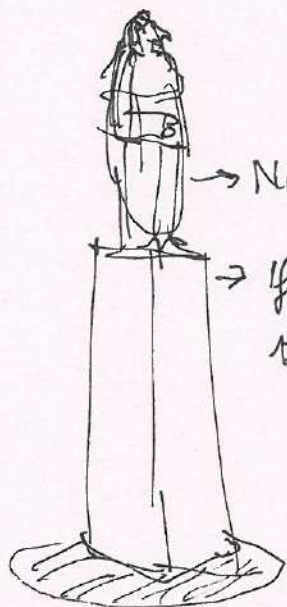

George Square — ever

if we don't know ~~who~~

all know who they are !

Statues... we should  
think about <sup>discuss</sup> what to  
do with them.

- Are there some that  
are more important  
to keep?
- Or should they stay  
because they reflect  
Glasgow's ~~old~~ history?
- Or...? 

→ NOT CONTEMPORARY,  
EMPIRE Heritage.

→ If you remove evidence of the empire  
you need to remove most statues in  
the city.

Statues are all (nearly)  
men from a  
certain age - and  
they're all "great  
people". except the  
war memorial

• (Almost) all men

• Not a reflection of  
contemporary Glasgow/  
culture. (except Burns)

~~NEEDS~~

NEEDS TO ACKNOWLEDGE BOTH THE  
HISTORY OF THE SQUARE ITSELF  
AND (IF THEY REMAIN) THE LINKS OF THOSE  
REPRESENTED IN THE STATUES TO GLASGOW'S  
KEY ROLE IN THE ENSLAVEMENT OF  
PEOPLE

NONE OF THE STATUES REPRESENT  
MODERN ~~MODERNISMS~~ + MULTICULTURAL  
GLASGOW.

WOMEN AND MINORITY COMMUNITIES  
ARE RARELY REPRESENTED UNLESS  
THEY ARE WHITE/

Statues are part of  
our history and  
should be preserved  
as they are.

PERHAPS WE SHOULDN'T  
CELEBRATE OUR HISTORICAL  
ENTHUSIASM FOR SLAVERY.

WE HAVE MORE MODERN  
HEROES TO HONOUR.

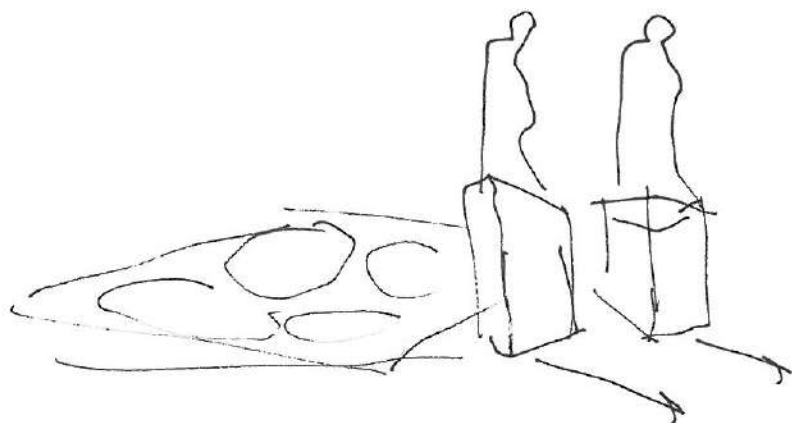

- They have incredible value, even though they are vestiges of empire/slavery etc.

SLAVERY LINKS  
SHOULD BE  
REPRESENTED

How about all these  
great Glaswegian  
women ?

STATUES CAN  
BE MOVED  
SOMEWHERE ELSE.

STATUES COULD  
BE PUT IN  
DIFFERENT PARTS  
OF THE CITY

Statues are a resource  
for the city, they can  
create public spaces  
of interest elsewhere

(statues)

Moving them <sup>^</sup> may be ok -  
but there will be

technical constraints.

But why move them?

The grass,  
trees and  
flowers.

Make it more  
of a green lung.  
for the city.

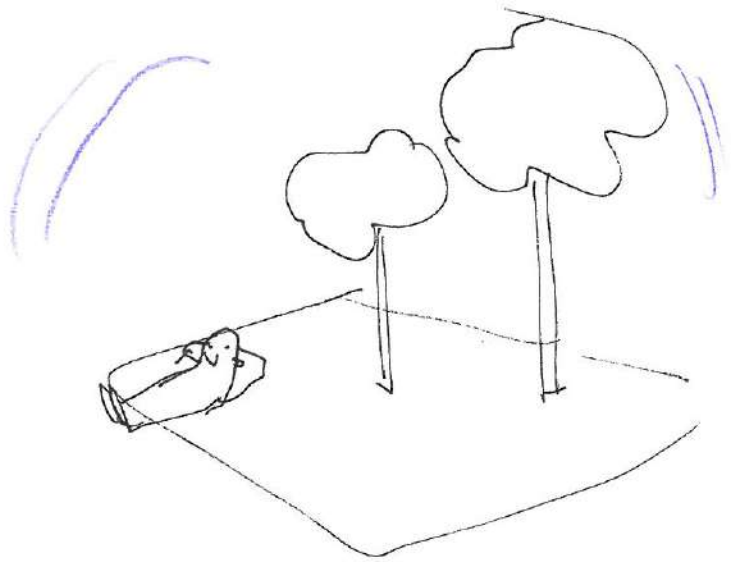

George Square is an obvious place to start for this.

As the only open space for miles,  
KEEP IT OPEN but plant more.

Put the trees back and create a garden with "rooms" for the people to enjoy & take the health benefits from.

GET RID OF THE PREHISTORIC  
STATUES & REPLACE WITH SOME  
MORE RELEVANT GLASGOW HEROES &  
HEROINES

RELAX = GREEN.

purpose

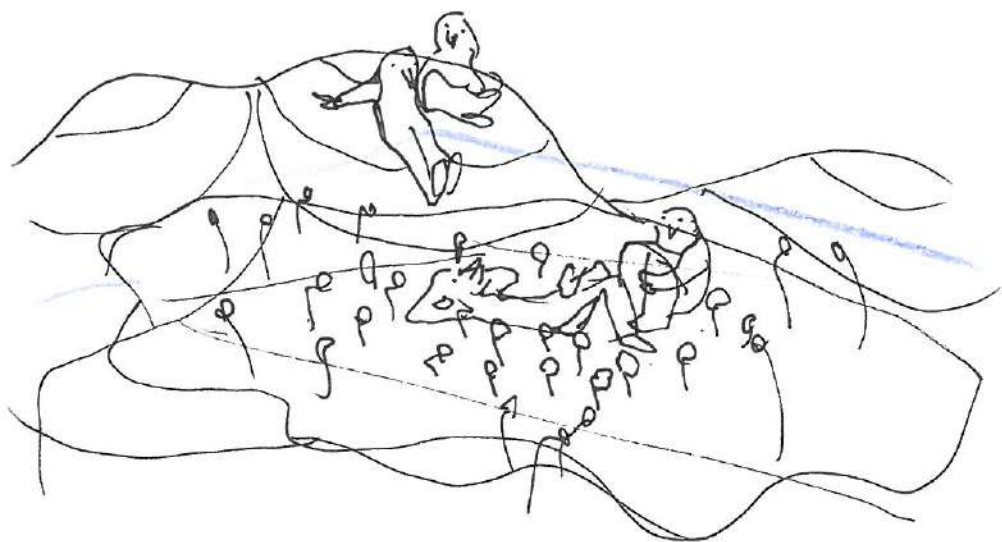

- rewilding?

- e.g. lavender / sensory

- greenspace in the  
city centre to give people

- trees would create nice  
spaces for sitting etc?

# RE - WILDING THE SQUARE

... less litter

Maintenance - whatever  
done must be good quality  
& kept in shape &  
cost efficient

Maintain monuments  
appropriately ! not bleach +  
black paint

Day to day maintenance,  
evidence of care  
that shows it is  
our sanctuary.

Justice issues are  
more pressing than  
foundational.

Caring lives in with  
Connection with a place  
and identity, Our  
needs to be incorporated

Will people keep it  
clean & stop dropping  
litter?

# What's Different About Glasgow & Euro Cities?

- Respect for the space
- It's something we want to have & keep.

Issues:  
Relationship  
with its  
buildings

We need to remember  
how what happens  
on George Square  
impacts on the character  
of ~~the~~ the buildings  
that are around it.

Buildings need  
harmonisation, they're  
a motley mix.

The public space  
can help with that,  
and soften the  
impact of the buildings.

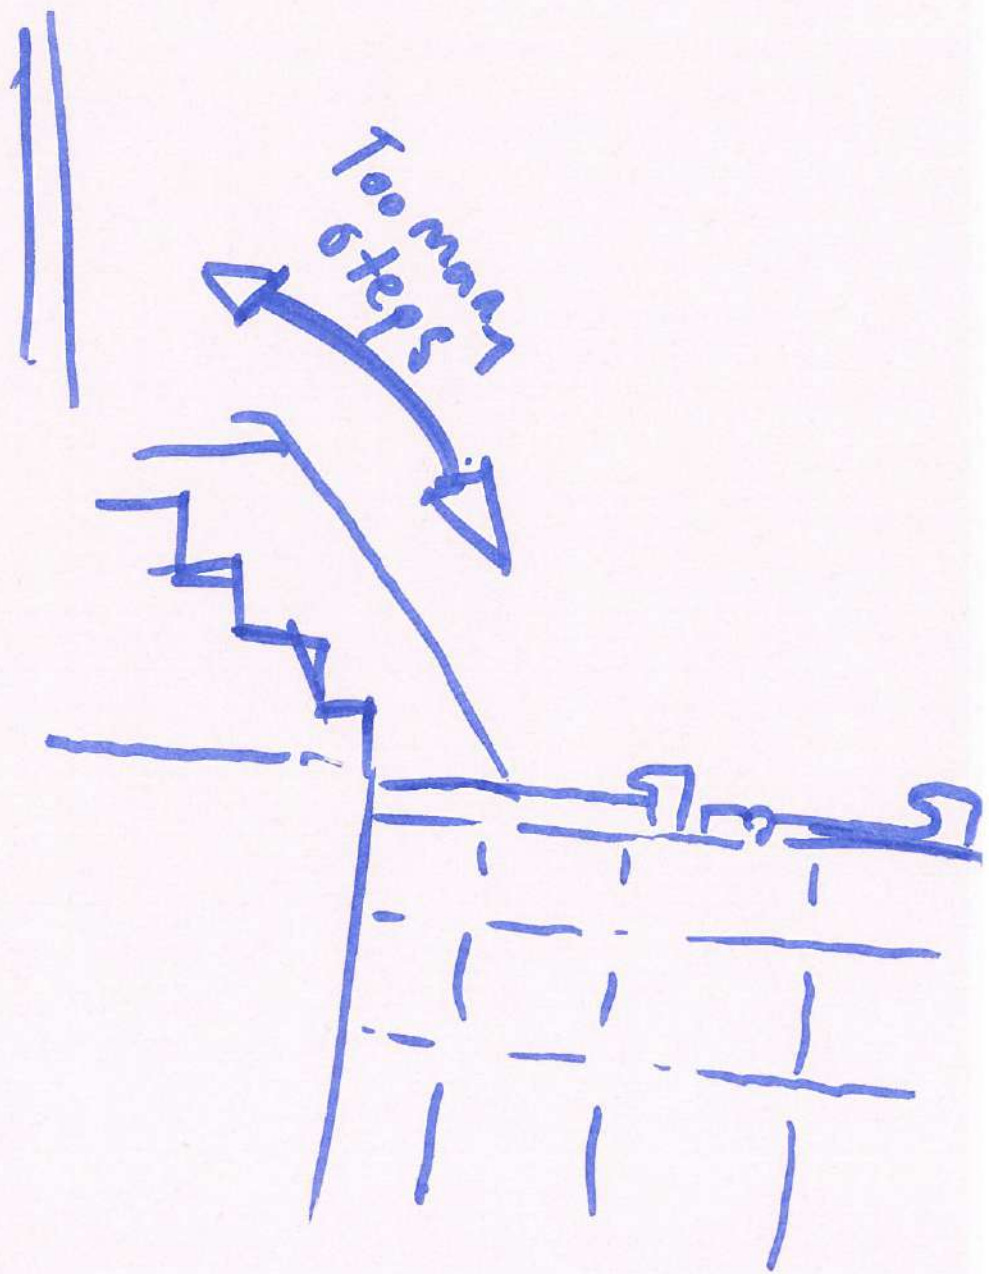

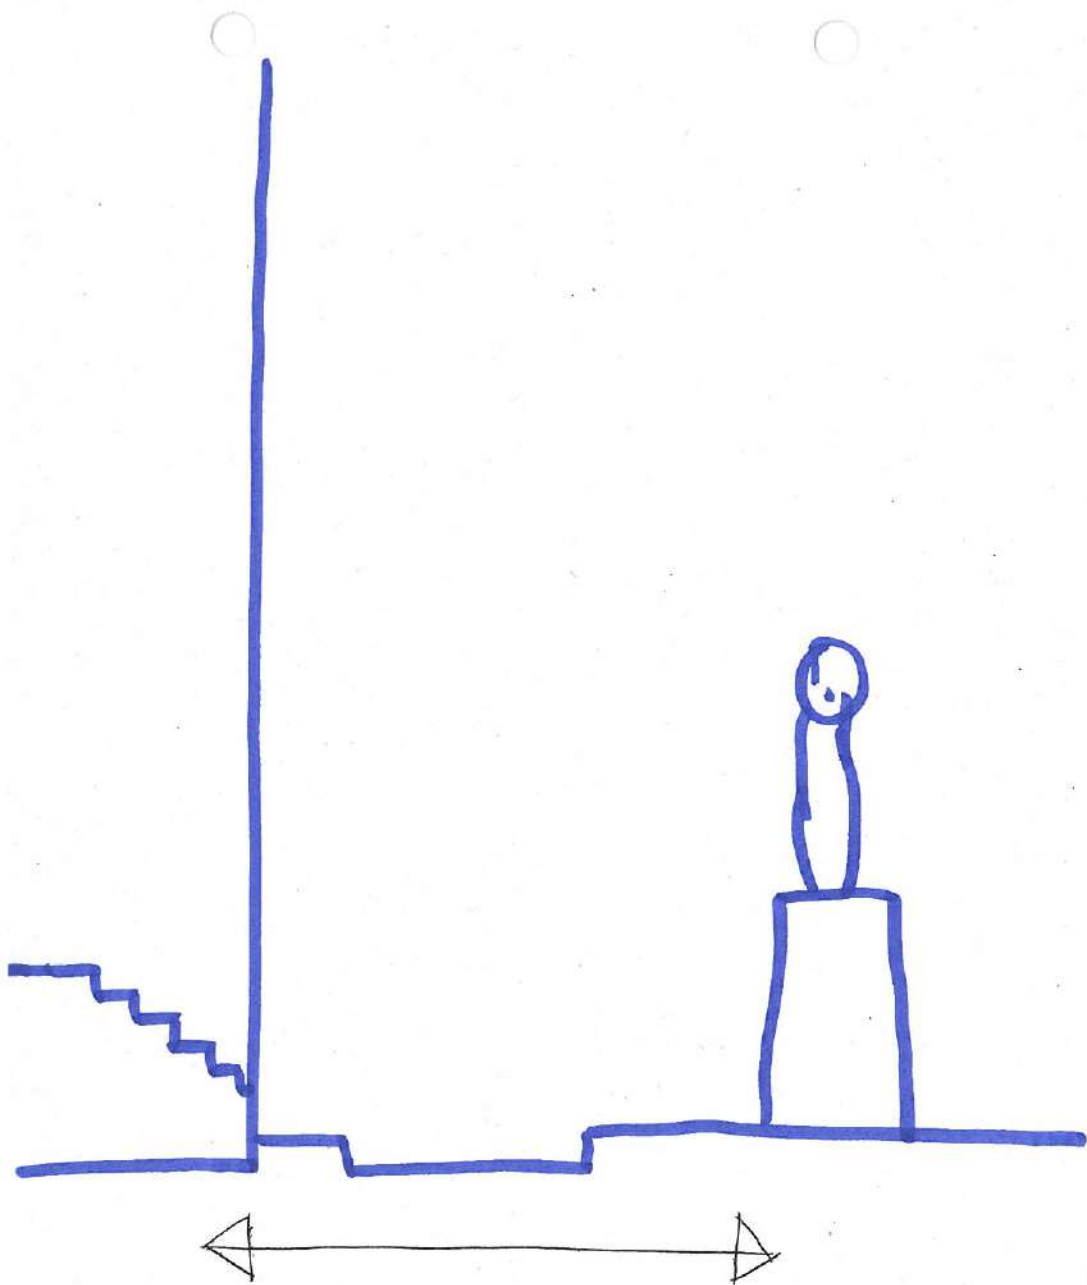

Keep it simple -

- don't waste money
- show off the buildings

City Chambers are  
currently cut off  
from the square  
currently.

SURROUNDING  
BUILDINGS ARENT  
VERY ACCESSIBLE  
- LOTS OF STEPS  
ETC.

Disconnect between  
ground floor of the  
square's buildings + public space.

Ground floor of  
buildings can introduce  
more 'public space'

Glasgow's buildings are

- BEAUTIFUL -

including George Square...

... if you look up!

There <sup>are</sup> ~~is~~ societies in  
Glasgow that champion  
architecture, but ~~it~~  
it is sometimes  
under appreciated.

Ernst + Young building  
is a carbuncle - replace it!

Issues:  
Shelter from  
elements

# SEASONAL CHANGES.

# A WINTER PALACE

DESIGN FOR THE CLIMATE

How do we get use of  
the Square in the winter?

- cafes with canopies/headers
- events programme
- planting that changes  
with the seasons

Introduce a street-fountain  
feature in centre of paved  
area - carefully set-out to collect  
water by 1:40 - 1:20 falls\* to central  
"sump".

\* Sufficient to get water collected  
in sump, whilst remaining useable  
for events.

In hot weather fountains operate  
to cool-down air

After events fountains <sup>(+side jets?)</sup> used to  
clean pavements.

Shade / shelter

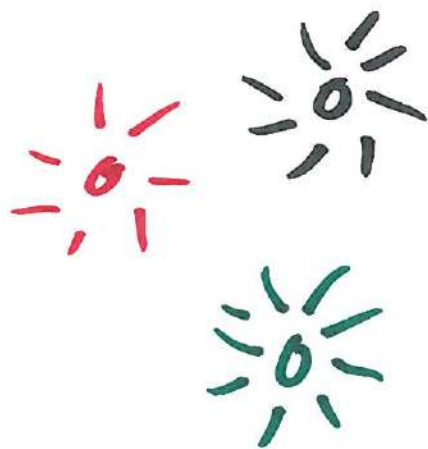

- trees
- sails
- beautiful constructions

This should be something  
that we are good at  
in Glasgow.

# Issues: Lighting

Lighting to make  
the Square more  
comfortable after dark /  
artistic / changing /  
interesting / contemporary

Lighting

~~more~~ improved lighting

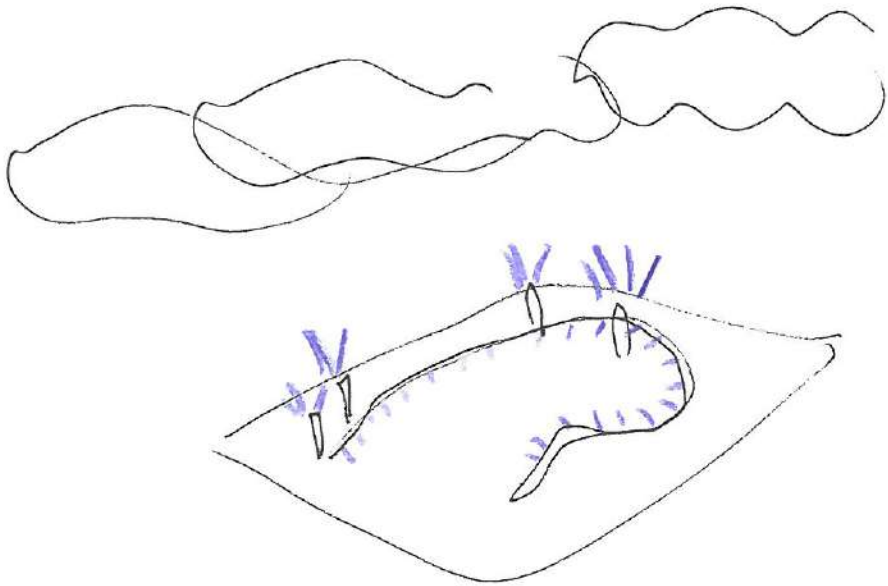

✓ This could be making  
be square a modern  
edge (be lighting more  
than be fountains).

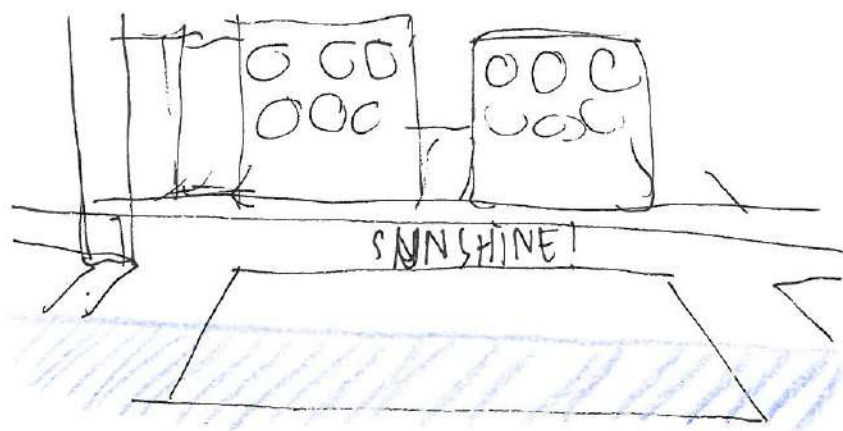

✓✓✓ Inviting  
Lighting ✓

LIGHTNING  
THAT REACTS TO  
THE WEATHER.

Miscellaneous  
(but important).

Authoritarian /  
overtones

I hate this thing  
why is it there?  
what is it for?

it gets in the  
way of any exciting design  
that could make the square great.  
Nobody's that bothered about  
nobody reads his booties

he's so high up you can't even see him!  
it's absurd!

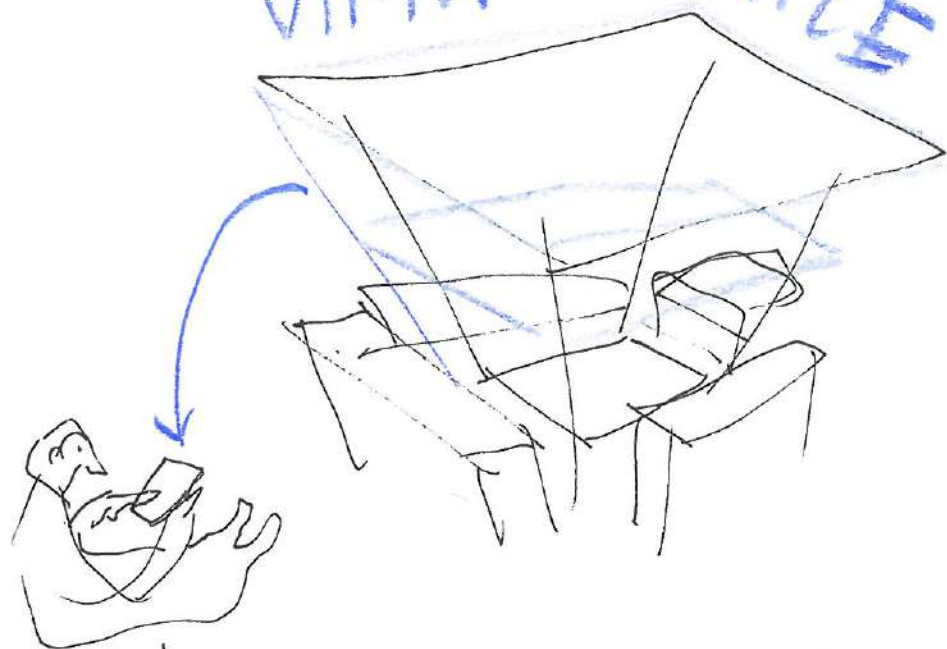

Sir Walter Scott anymore

- Many people in the city centre.  
of Glasgow.

THINK ABOUT THE VIRTUAL  
GEORGE SQUARE.

VIRTUAL SPACE

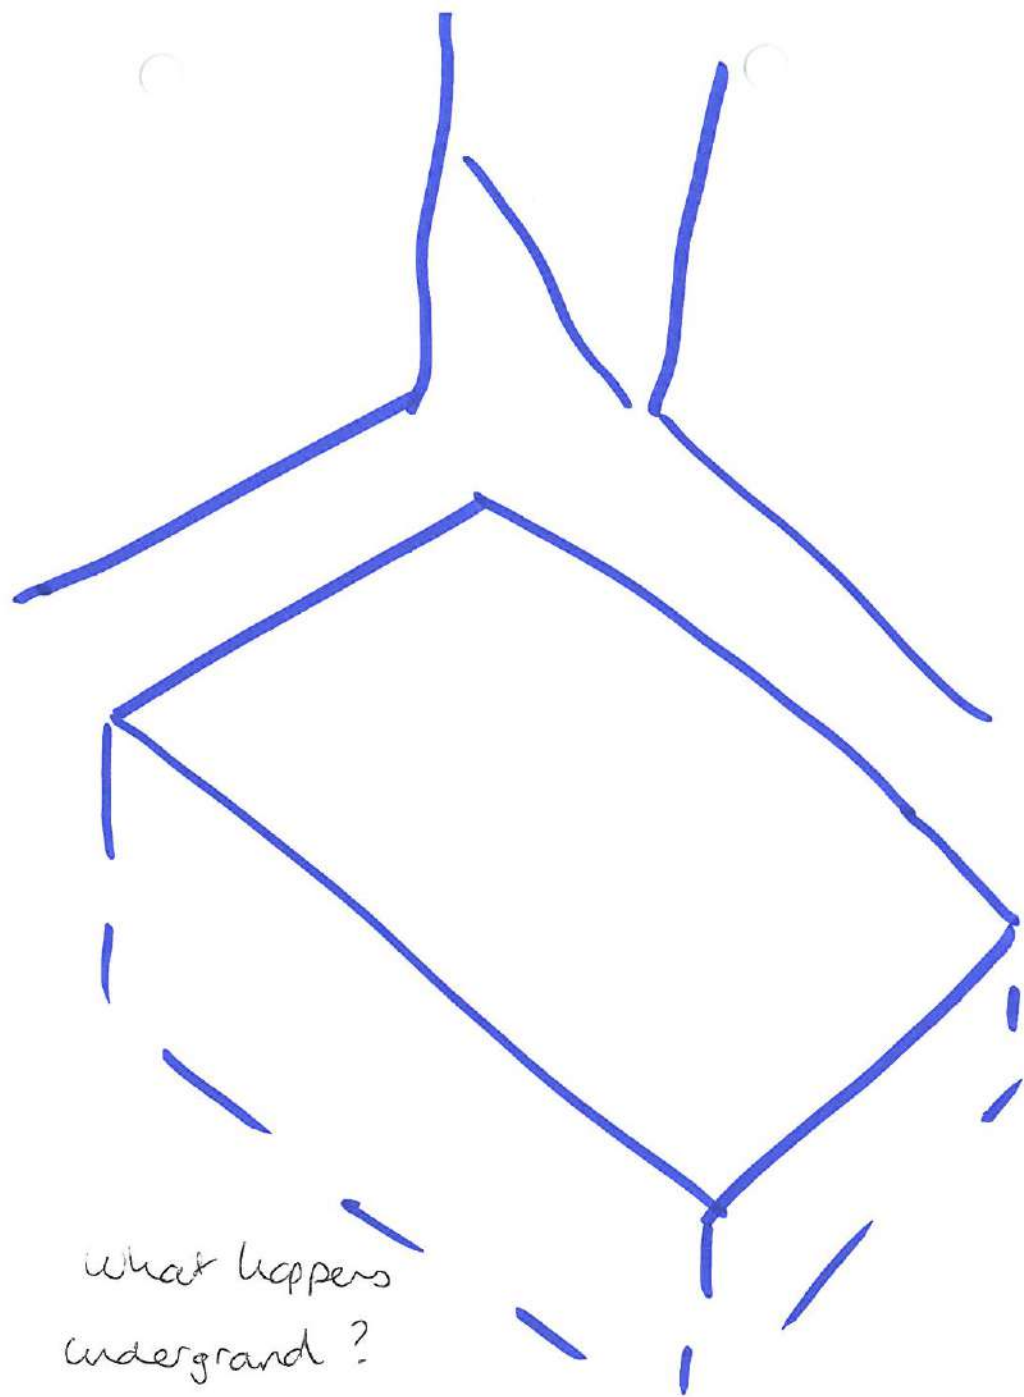

→ people can create their  
own George Square.

→ PLATFORM for people to have a say.  
about the urban environment.

What's underground?

Is this an underutilised asset.

A split between  
ground floor of somewhere  
'to be lazy' and then  
something to do.

what happens  
underground?

could this be used.

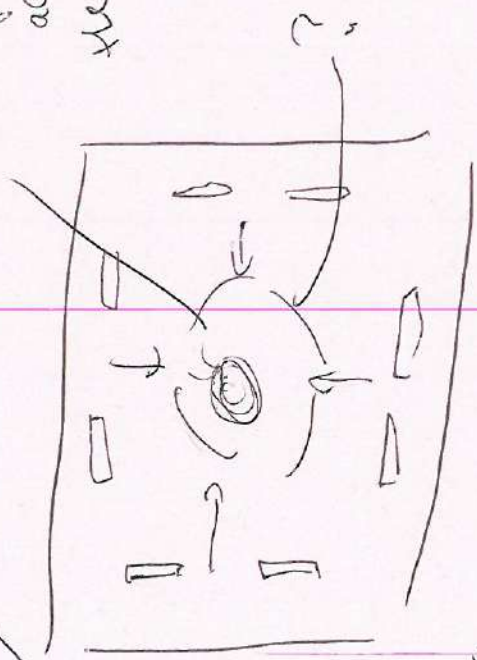

Look at Farted Spacet.

Why do they fail?

- Union Terrace Gardens  
Aberdeen.

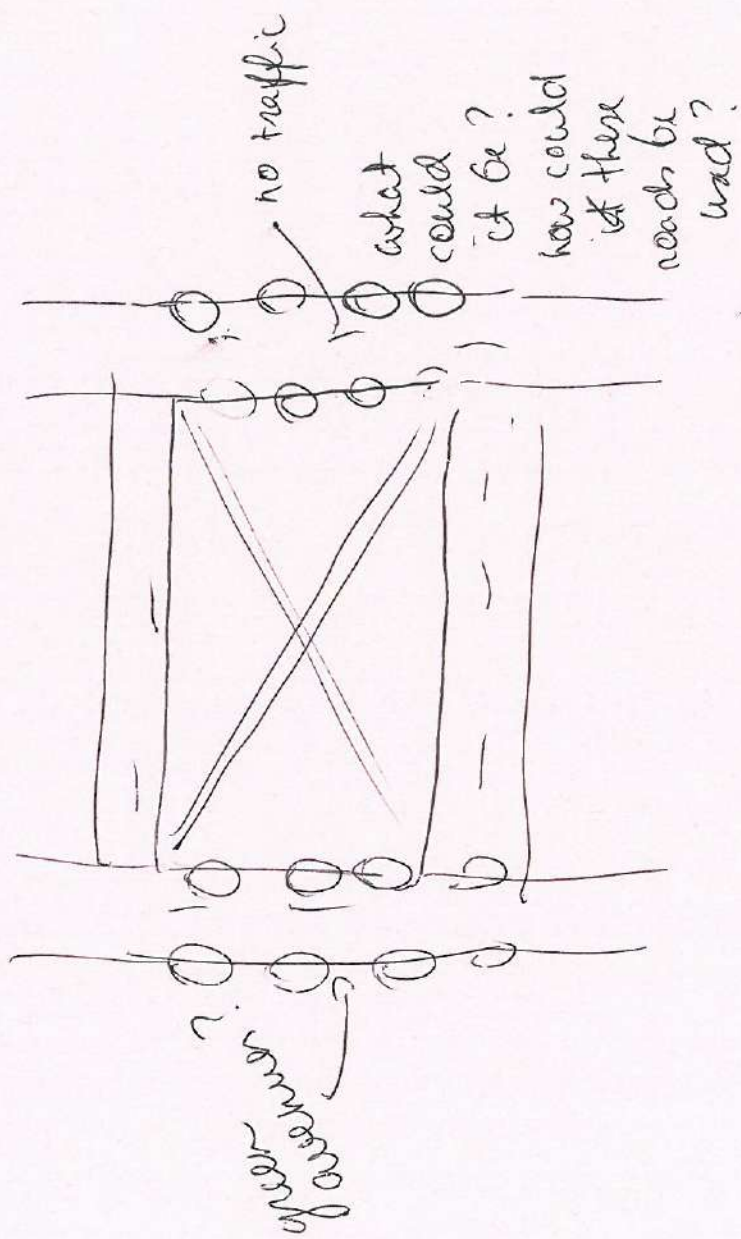

connection  
to friends  
to the city.

contemporary to  
additions ~~sculpture~~  
the existing structure.

sculpture is asking  
- "What it  
means to  
be a citizen  
of a place?"

center  
of affairs.

# OUTDATED

EVENTS:

Bring business away?

Should events be moved elsewhere?

~~WOMAN ARE EDGES~~

CENOTAPH should be moved.

NOT LIKE THE DESIGN

DO NOT LIKE ~~THE~~ EVENTS

WHEN THEY TAKE OVER

TOO MUCH OF THE SPACE

→ Too small to do something out it.  
Too small to enjoy it.

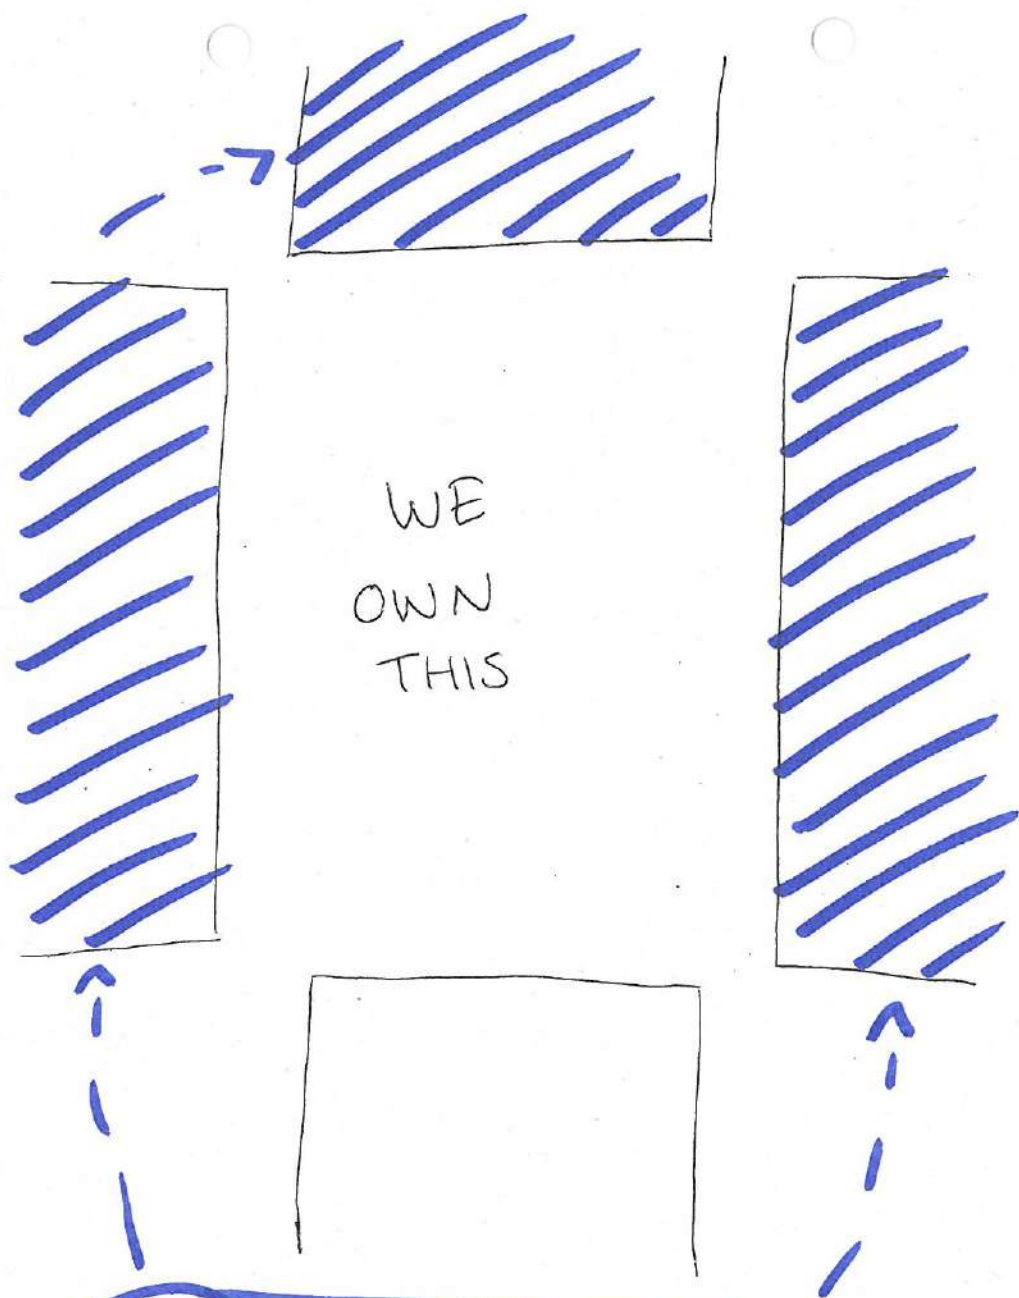

→ look at what is around  
there.

→ Glasgow green is boring.

guide people around.

Replace polished granite  
kerbs for towns ab West.  
End of Square.

(I am told these are "safe" +  
in store - not stolen?)

WE  
OWN  
THIS

WHO OWNS THIS?

## ANIMATE ~~CH~~ EDGES

CENOTAPH? Should stay where it is just now.

Softer + greener

Climate change mitigation measures should be integrated in the design of the square.

~~Mod~~ Modern art in the Square.

What is under the Square?

Tunnels? What is the history?

## SMART SQUARE
